

Teacher Data Dashboard (Analytics)

View data for current students with Pinnacle's new Analytics Dashboard. This year's data is available along with data from previous school years.

While in Gradebook, click **Analytics** from the Reports section.

To access student data via the *Current Student List*:

- Double-click column headings to sort by those criteria.
- Click in Curriculum column to display only certain types of students. Ex. ESL or SP ED
- Click and drag over several students to select a specific group. Charts above student list automatically change to reflect selected students.

Using the Toolbar:

- Clears all selections
- Steps back one selection
- Displays current selections
- Creates a Quick Chart
- Add and Remove Bookmarks

The dashboard includes a toolbar with icons for clearing selections, stepping back, displaying current selections, creating a quick chart, and adding/removing bookmarks. Below the toolbar are three charts: WASL Score History, Elementary Report Card Marks (2008/09), and Middle/High School Grade History. Each chart has a 'CLICK HERE for details' button. Below the charts is a 'Current Student List' table with 36 students. The table has columns for Student, Student ID, Curriculum, Grade, Years in BSD, Course, and Period.
