

Bellevue School District
Checklist for Required Health Information for Elementary School
2008-2009 School Year

Dear Parent/Guardian,

In order for me to understand your child's individual health needs and how we can support them while they are here at school, I am requesting the forms in this packet to be filled out and returned to the office by the first day of school. This information will be very helpful to assist your child in having a successful academic journey throughout their elementary school career.

Attached are the following forms:

- Please read the "**School Health Examination and Immunization Policies**" so that you understand all of the health services and requirements for the Bellevue School District.
- Please reference the "**Washington State School Immunization Requirements**" so that you know what your child needs to meet the state immunization requirements and then fill out the Immunization form.
- Certificate of Immunization Status Form** and return to school office before the first day of school.
- The **Confidential Emergency Health Information** from the desk of the school nurse. Please fill out and return to school office by mid-August or the first day of day. This is health information that is used by the nurse and other staff on a "need to know basis".
- Elementary School Medical History and Physical Examination Form**. This form needs to be filled out by your physician and is a requirement for **all incoming kindergarten** and students new to the district.

Thank you very much for your ongoing support of school and home working together for the health and safety of our students. You can always access the district webpage (www.bsd405.org) under QuickLinks and then Health Services for a copy of these forms and information.

If you have any health questions please contact Nell Garvin at 425-456-4177.
